

Hayeong Ryu

Researcher at IIPL | Last Update: May. 28, 2026
✉ bluebarry37@cau.ac.kr | 🌐 Hayeonggg | 🔗 LinkedIn | 🏠

Research Interest

Natural Language Processing, Trustworthy AI, and Large Language Models

Education

Chung-Ang University

Seoul, Korea

M.S. in Artificial Intelligence

Mar. 2025 – Feb. 2027

GPA: 4.44 / 4.5

Advisor: YoungBin Kim

Seokyeong University

Seoul, Korea

B.S. in Computer Science and Engineering

Mar. 2020 – Feb. 2025

GPA: 4.05 / 4.5

Research and Work Experience

Research Assistant

Intelligent Information Processing Lab @ Chung-Ang Univ.

Advisor: YoungBin Kim

Mar. 2025 – Feb. 2027

Undergraduate Intern

Intelligent Information Processing Lab @ Chung-Ang Univ.

Advisor: YoungBin Kim

Jul. 2024 – Feb. 2025

Undergraduate Researcher

RACS Lab @ Seokyeong Univ.

Advisor: Youngwan Cho

Mar. 2022 – Jul. 2024

International Publications

Mitigating Visual Context Hallucination in LVLMs

Byeonggeuk Lim, Junehyoung Kwon, JungMin Yun, Hayeong Ryu, YoungBin Kim

AAAI 2027 (under review)

Background-Aware Negative Separation for Zero-Shot OOD Detection

Kahyeon Kim, Eunju Lee, Keunhyeung Park, Junehyoung Kwon, Yoonji Lee, Hayeong Ryu, YoungBin Kim

WACV 2027 (under review)

Evaluating Anachronistic Hallucination in Large Vision-Language Models

Keunhyeung Park, Byeonggeuk Lim, Kahyeon Kim, Sunhee Jo, Hayeong Ryu, Hoejoon Kwon, Jinhee Jang, YoungBin Kim

WACV 2027 (under review)

Dynamic Evidence-Guided Decoding for Action Hallucination Mitigation in VideoLLMs

Sunhee Jo, Junehyoung Kwon, Byeonggeuk Lim, Kyeonghyun Kim, Hayeong Ryu, YoungBin Kim

NAACL 2027 (under review)

Dynamic Trajectory for Token-Level Early Warning of Hallucination Detection

Hayeong Ryu, JungMin Yun, Sunhee Jo, Kyeonghyun Kim and YoungBin Kim

NAACL 2027 (under review)

Student-Aware Factual Knowledge Distillation

Hayeong Ryu, Sunhee Jo, YoungBin Kim

NAACL 2027 (under review)

Beyond Safe Answers: Segment-Aware Listwise Alignment for Reasoning Safety in Large Reasoning Models

JungMin Yun, Junehyoung Kwon, Hayeong Ryu, Byeonggeuk Lim, Hoejoon Kwon, YoungBin Kim

EMNLP 2026 Main Conference

Don't Count the Edits, Judge by the Outcome Alone: Reward-Based Evaluation for Grammatical Error Correction

Hayeong Ryu, Sunhee Jo, Seunguk Yu, YoungBin Kim

EMNLP 2026 findings

Look Before You Leap: Factual Decoding with Internal Attribution Signals

Hayeong Ryu, JungMin Yun, Byeonggeuk Lim, Sunhee Jo, YoungBin Kim

EMNLP 2026 findings

Data-driven Framework for Stable Nozzle Arrangement under Limited Industrial Flow Data

Seunguk Yu, Jinhee Jang, Hayeong Ryu, Hongyoung Kim, Heesue Jeong, YoungBin Kim

IEEE Access 2026 (under review)

Fidelity Assessment of Large Language Models across Cross-domain Benchmarks ([Paper](#))

Seunguk Yu, Hayeong Ryu, SeungHoo Lee and Youngbin Kim

PAKDD workshop 2026

Domestic Publications

배경 인식 Negative Label 분리를 이용한 CLIP 기반 Zero-shot OOD 탐지 방법

Kahyeon Kim, Eunju Lee, Keunhyeung Park, Junehyoung Kwon, Yoonji Lee, Hayeong Ryu, YoungBin Kim

Joint Conference on Communications and Information 2026

프레임 간 시간적 유사도에 기반한 동적 패치 유도 디코딩 기법을 활용한 비디오 동작 환각 완화

Sunhee Jo, Junehyoung Kwon, Byeonggeuk Lim, Kyeonghyun Kim, Hayeong Ryu, YoungBin Kim

Joint Conference on Communications and Information 2026

어순 변형을 통한 한국어 질의응답 모델의 의미 이해 강화

Hayeong Ryu, YoungBin Kim

HCLT-KACL 2025

다중 LLM 응답과 이중 정제를 통한환각 탐지 데이터 생성 프레임워크

Hayeong Ryu, Kyeonghyun Kim, Yeonghwa Kim, JuneHyoung Kwon, and YoungBin Kim

Summer Annual Conference of IEIE 2025

Research Projects

Teaching Assistant, Large Language Models, Chung-Ang University

Mar. 2026 – Jun. 2026

Developed lecture materials and designed assignments for large language models

AI-based Design Automation Tool Development

Oct. 2025 – Jul. 2026

Industry Research Project; Developed data augmentation pipelines for model training

Teaching Assistant, Advanced Deep Learning for NLP, Chung-Ang University

Sep. 2025 – Oct. 2025

Led hands-on labs on fine-tuning pre-trained models and optimization techniques

Teaching Assistant, Open Source Software Project, Chung-Ang University

Mar. 2025 – Jun. 2025

Developed and organized lecture materials on open-source methodologies

Academic Projects

ChatGPT-based AI Voice Assistant for Visually Impaired

Mar. 2024 – Dec. 2024

Award: **Bronze Prize** (ICT Mentoring; 한국정보방송통신대연합회장상)

Developed a multimodal AI voice assistant integrating vision and speech [GitHub](#)

Personality Analysis using LSTM and Bi-LSTM

Nov. 2023

Award: **Best Poster**

The Society of Convergence Knowledge Fall Conference

MBTI Analysis via Deep Learning-based NLP

Aug. 2023 – Nov. 2023

Course: Capstone Design

NLP-based MBTI prediction using LSTM/Bi-LSTM with LLM-based data augmentation

[GitHub](#)

ACADEMIC SERVICES

Reviewer - WSDM 2026

Skills

Language Proficiency

Korean (Native)

English (Basic)

Programming Languages

Python (Familiar)

Libraries & Tools

PyTorch | HuggingFace Transformers | Pandas
